Web Developer/Assistant Shipment Planner

Textile Channel

09/2021 - Present

Karachi, Pakistan

Textile Channel (TC) aspires to be a well-known Pakistani supplier of high-quality home textiles and knitted garments.

Achievements/Tasks

- Working directly with the Director/CEO of this company to conceptualize and implement front-end designs and functionality to optimize UI/UX on existing website content.
- I use React, Material UI, MySQL & some useful npm packages to build the Textile Channel website.
- Additionally, I plan shipments. Along with my management, it is my obligation to administer and maintain the entire business process of the ERP system in this company.
- Working with the sales team and designers to create material for marketing and buyer presentations.
- Collaborate with different business units to find the right balance of commitments.
